AI powered application building pipeline

Installation

From the root of the project execute:

```
./Scripts/install.sh
```

or

```
./Scripts/install.sh CATEGORY
```

where **CATEGORY** can be on of the following categories:

- **General**
- **Coder**
- **Tester**
- **Translation**
- **Generative/Animation**
- **Generative/Audio**
- **Generative/JPEG**
- **Generative/PNG**
- **Generative/SVG**

Note: If none has been passed to the script, the **General** category will be used.
